MEDICAL DIVISION PRODUCT CATALOG

*Integral solutions
in health care*

Our Advanced Productions Lines

1.ATC(Automatic Temperature Control)System,stable and accurate (+/-0.5°C)

2.ASS(Automatic Stripping System), Efficient, and Less Labor

3.ACS(Automatic Counting System),efficient and error free

4.ADS(Automatic Dosing System),precise,less human factors

5.High percentage Spot Check, High quality assured

6.Gas-smoke retrieving,Desulfurization and Dedusting,WCS(Water Circulation System),care for the environment.

Advanced Production

- 1. Class 100,000 Clean Room for Dust-Free Production Environment*
- 2. ISO 9001, EN14683 Certification*
- 3. Total Quality Control for sustainable production*
- 4. Fabric thickness from 12 grams to 150 grams per square meter*
- 5. Fabric coating, including anti-static treatment, up to 160cm wide*
- 6. World Class raw materials from PGI, SAAF and Dupond.*

Disposable gloves are used in food, industrial, light chemical, dental and medical applications. Superior's disposable gloves are available in polyethylene, vinyl, latex, and nitrile. They are also available in varying thicknesses (measured in millimeters) from 3 mil to 15 mil depending on the touch sensitivity or durability required.

SG105	Latex	Left Right Hand	Clear	S-XL	Beaded	Lightly Pre-Powdered	Smooth	100 Gloves Per Box, 10 Boxes Per Case

Specifications:

- Natural high quality latex
- Low Protein Content
- High strength and elasticity
- Lightly powdered for easy donning
- Left/Right Hand Fitted for highest comfort
- Beaded cuff and smooth external finish
- Sterile

Applications:

Surgical Room / Operation Room

STERILE EO

Nonwovens are extensively used in the medical field and for protection against biological agents in other sectors. For example, they can be designed to deliver critical safety properties, such as protection against infections and diseases. With today's multi-drug resistant strains of bacteria and virus, nonwovens can help in the fight against cross-contamination and the spread of infection in a medical or surgical environment. They are used only once and incinerated after use, so the need for handling is avoided and the spread of contaminants is minimized.

DM120

DM160

Specifications:

- Made of Spunbond polypropylene from 120 g/m² to 240 g/m²
- Helps reduce exposure to dust from sanding particle board drywall or non-lead based paints and fiberglass insulation dust
- Adjustable noseclip reduces pressure points and provides comfort.
- Comfortable
- Lightweight
- Disposable
- Not NIOSH approved

Applications:

Household / Cleaning

Notice:

This dust mask is NOT a respiratory protective device and SHOULD NOT be used against fine particles, gases, vapours or paint sprays. It SHOULD NOT be used where a device with European Directive 89/686 or 89/656 is required.

To order add the Certifications required to complete the Product Code. eg. IDC3S/FFP1

Specifications:

- Filter layer after static treatment can filtrate and absorb extremely small harmful industrial powder effectively to prevent anthracosilicosis
- Adjustable nose clip makes the mask closer to the face so that powder cannot leak in between.
- Elastic cords made of Lycra sewn by means of supersonic welding can protect those who wear the mask more effectively.
- Conforms to the requirements of European Community Directive: 89/686 (articles 11.B)
- Conforms to European Standard EN 149:2001 as class FFP2 respirator for use against non-toxic to low toxicity solids and liquid aerosols
- Exhalation valve fitted with the exclusive “butter-fly” opening-closing system.
- Latex and PVC free

Applications:

- Construction,
- Mining
- Textile
- Grinding
- Pharmacy
- Cement, glass and hardware.

MC101

Specifications:

- Secures hair and minimizes the risk of contamination
- Soft non-woven construction for comfort and security
- Elasticated trim accommodates a variety of hairstyles
- Single Elastic or Double Elastics
- With or without Metal Strip

Applications:

Clean Room / Foodservice / Healthcare / Dental / Industrial Safety / Laboratory / Homecare

SureGown*

Standard Spunlace Surgical Gown

STYLE	DESIGN	MATERIAL	STERILIZATION	SIZES	PACKAGING
SSG704A	Standard Surgical Gown	70g/m ² Spunlace	None	M, L, XL, XXL	1 pc/bag, 25 pc/case
SSG704B	Standard Surgical Gown with Hand towel and Wrapper	70g/m ² Spunlace	ETO	M, L, XL, XXL	1 pc/bag, 25 pc/case

Spunlace gowns are made from soft spunlace fabric with anti-static and fluid resistance. This soft, cloth-like spunlace material provides exceptional comfort for those who spend much of their day in a surgical gown. It keeps wearers cool and comfortable. For light to moderate blood exposure, protecting surgeon, first assistance and scrub nurses.

Specifications:

- Soft spunlace fabric (made of woodpulp and polyester)
- Fluid repellent
- Generous cut
- Velcro neck binding
- Book fold

Applications:

Operation Room

SIZE	SURGICAL GOWN
M	125x150cm
L	130x150cm
XL	140x160cm
XXL	150x160cm
XXXL	160x160cm

SureGown[*]		Standard SMS Surgical Gown			
STYLE	DESIGN	MATERIAL	FRONT AND SLEEVE REINFORMENT MATERIAL	SIZES	PACKAGING
SSG453A	Standard SMS Surgical Gown	45g/m ² SMS	None	M, L, XL, XXL	1 pc/bag, 25 pc/case
SSG453B	Standard SMS Surgical Gown with Hand towel and Wrapper	45g/m ² SMS	ETO	M, L, XL, XXL	1 pc/sterile, 25 pc/case

Standard SMS Surgical gowns are made from 5-layer polypropylene materials with anti-static and fluid resistance. Three layers of spunbond polypropylene ensure an extraordinary flexibility and drapeability, provide tough abrasion resistance and cloth like feel, and two layers of meltblown polypropylene form an efficient barrier against bacteria, as an exceptional microbial barrier.

Specifications:

- 5-layer anti-static breathable fabric
- Fluid repellent
- Excellent microbial barrier
- Excellent physical barrier to contaminants and fluids
- Stronger fabric with a matte finish, resistance to tears
- Softer fabric with comfort inside and outside
- Generous cut
- Velcro neck binding
- Book fold

RSG455B	Fabric Reinforced Surgical Gown with Hand towel and Wrapper	45g/m ² SMS	40g/m ² SPP	Interior	ETO	M-XXXL	1 pc/sterile, 25 pc/case

Polypropylene materials with anti-static and fluid resistance. Three layers of spunbond polypropylene ensure an extraordinary flexibility and drapeability, and two layers of meltblown polypropylene form an efficient barrier against bacteria. The critical zones including arm and chest areas are protected by fabric reinforcement with an additional strong and breathable SSMMs. The seams on the sleeves are ultrasonic sealed to avoid fluid penetration through pin holes.

Specifications:

- 5-layer anti-static breathable impervious fabric
- Fluid repellent
- Excellent microbial barrier
- Excellent physical barrier to contaminants and fluids
- Stronger fabric with a matte finish, resistance to tears
- Softer fabric with comfort inside and outside
- Generous cut
- Velcro neck binding
- Book fold
